

6 REASONS TO CHOOSE

STE WASTE
Recycling Redefined

**We always guarantee a warm welcome
and a friendly local voice for all
our new and existing clients.**

PRICE

With more than 3,000 waste collections a week in Manchester and Cheshire, our high route density means we can keep our costs low. We'll always give you great prices that offer genuine value for money.

FLEXIBLE CONTRACT

One months notice at anytime, along with no hidden charges such as duty of care, bin rental and excess weight restrictions.

LOCAL SERVICE

We only operate in a 20 mile radius from our base which means we can react to any issues quickly. All our staff are Manchester and Cheshire based.

ENVIRO FRIENDLY

We recycle as much as we can. We have also recently planted 25,000 trees in Dunham Massey, Lyme Park and Tatton Park to offset our carbon footprint. Our trucks are all EURO 6 making us the cleanest bin truck fleet in the area.

OFFICIALLY CERTIFIED

We have all the necessary UKAS ISO accreditations certified by ISOQAR. Plus we are a member of safecontractor and BSIA

EXPERIENCE

We have just celebrated 25 years in business. If we can get more clients locally, we can protect local jobs at this difficult time and be around for another 25 years.

Trade Waste Collection & Recycling across Manchester & Cheshire

Using your local waste company in 2020 will allow you to save money, improve service levels and support local jobs, whilst reducing your environmental impact.

Competitive Prices

With more than 3,000 waste collections a week in Manchester and Cheshire, our high route density means we can keep our costs low. We'll always give you great prices that offer genuine value for money.

Business Waste Collection

Flexible and efficient service tailored to your individual waste requirements. Our expert team will help you find the most efficient and cost-effective solution for your business waste needs with our full range of bins. Whether you require a simple weekly bin collection or a total waste management and recycling solution for different waste streams, we can tailor our service to meet your requirements.

Stay Local & Support Local Jobs

If you use STE Waste, not only are you helping to protect jobs, but also our supply chain which is entirely Manchester and Cheshire based. This includes our mechanics, our marketing team and where we process all our waste and recycling, together with everything else that we buy.

If you are experiencing poor service at the moment or simply want to price check your local service provider, please request a quote online.

Please email info@stewaste.com for a full no obligation quote

Secure Paper, Computer Recycling & Hard Drive Shredding

Data and identity theft can have catastrophic effects for your business. Our secure paper and data shredding service is the only way to ensure your private business documents are completely destroyed, forever.

Paper Shredding

There are three ways that we can make sure your information stays safe:-

1. ONSITE

Our high security vehicles will visit your premises. For total peace of mind, you're welcome to view the destruction process as it takes place.

2. OFFSITE

A secure vehicle will visit your place of work to collect your paperwork and deliver it to our premises where it will be safely and securely destroyed and then recycled.

3. ADHOC

Clear out all your documents in one go. Just book an appointment, leave your paperwork in an accessible (but secure) ground floor location and we'll do the rest.

On-Site Computer Recycling & Hard Drive Shredding

STE Waste is the first company in the UK to offer an onsite shredding service for computer hard drives. For ultimate peace of mind, we'll visit your business premises in our high security shredding vehicle, and destroy your hard drives and devices whilst you watch. The shredded materials and redundant equipment will then be taken away for recycling.

We always apply the strict WEEE recycling Code of Conduct, so we can supply your business with an audit trail for all your redundant computer equipment. We also work to the strict guidelines imposed by ISO 27001 regarding information security.

25 years, 25,000 trees planted in Dunham Massey, Lyme Park & Tatton Park.

In January 2020, we celebrated 25 years in business by donating to the planting of 25,000 trees in Dunham Massey, Lyme Park and Tatton Park National Trust properties to offset all our carbon emissions.

Using your local company as a supplier is the most efficient way of reducing your negative environmental impact at a time when this is more important than ever.
